

Sinclair
Broadcasting's
decision to have
their stations air
an anti-Kerry
documentary days
before the election
is very much needed
since the liberal
press has chosen to
ignore the TRUTH
about Kerry's
treasonous actions
that caused harm to
our military in a
war zone.
Unfortunately, the
liberal press could
only receive forged
documents from the
Kerry camp about the
president and try to
pass them off as
truth, rather than
give the Swift Boat
Veterans equal time
to reveal their
SUBSTANTIATED FACTS.

Sinclair uses the
public airwaves free
of charge, and is
obligated by law to
serve the public
interest. Therefore,
their decision is a
breath of fresh air
in a stale liberally
biased press
kingdom. The
liberals are mad
about their decision
because they believe
a free press is one
that reports only
their twisted view
of reality. The
fact that Fox News
dominates cable and
the rapidly dropping
viewership numbers
of network news
shows that the
country needs the
truth.

Sinclair's actions
show why we need a
voice in the
wilderness to
counter the lies and
fabrications of the
one-sided liberal
mainstream media..
Please do not bow to

the pressure from
the liberals, the
vast majority of
Americans support
Sinclair. I only
wish I had an
affiliate here.
Nonetheless, I will
definitely purchase
products from
Sinclair sponsors to
reward them for
their courage to
seek the truth over
the objections of
the liberals.. Thank
you.
